

Sprint Plan #1

Context Project: Multimedia Services

Group: 5

User Story	Task	Task Assinged To	Estimated Effort per Task
As a user I should be able to listen to a preview of a song instead of the whole song.	Determine how to choose a snippet based on papers and document	Jordy, Stefan, Tomas, Arthur , Daan	Low
	Implement an algorithm that desides the preview window, first select the first 30 seconds	Jordy	Medium
	Implement an algorithm that desides the preview window, based on comment intensity	Stefan, Tomas	Very High
	Implement snippet class that stores snippet of a son	Stefan	Low
	Determine part of song with highest comment intensi	Stefan, Tomas	Medium
	Connect java with framework	Jordy	High
I should be able to use the application through my browser.	Set up a webpage with the framework	Daan	Very High
I want to use the soundcloud player for my music.	Integrate soundcloud widget	Arthur	Medium
I want to be able to choose the song with an URL.	Send url to java applet.	Arthur, Daan	High
	Create a database with a fraction of the data.	Daan	Medium
If I like a song, I want to be able to add it to my Soundcloud likes	Add functionality to soundcloud widget	Artur	Medium
